 RE: FY13 Levy Recommendations

Below is the levy breakout for the current fiscal year and also a proposed levy for FY13 which includes a three percent increase (the maximum we can increase per year as stated in MN Statute). For 2013, the levy has been estimated at \$272,267 which is an increase of \$7,930. The amount paid by each county is based on the county's share of the Region's net tax capacity. The state sends out a distribution percentage breakdown usually towards the end of July and at that time I will provide you with the actual breakout as well as certify that amount with each county auditor.

		FY12 Allocation	FY13 Estimate	3% Proposed Increase

RE: FY13 Statement of Indirect Costs & Direct Expenses

Attached for your review is our working draft of the FY13 statement of indirect costs and a worksheet showing the breakdown between direct and indirect expense. The RDC has used the indirect cost process as a fair and equitable way of distributing expenses across agency program areas. All costs that can be identified specifically to a program area are charged directly. Expenses that are not easily identifiable with a specific program are charged to the indirect cost pool. These expenses are shared among programs that benefit by dividing the total of expenses charged to the indirect pool by the number of direct hours to establish an hourly rate. For each hour charged to a program the hourly indirect rate is also charged to that program.

Staff will continue to refine these documents and will present the revised document at the July annual meeting for approval.

ACTION REQUESTED

To recommend the draft FY13 statement of indirect costs be presented at the annual RDC public meeting in July.

RE: FY2013 Budget Recommendations

Attached is the Fiscal Year (FY) 2013 budget. It looks pretty good for the beginning of the year. The amounts that are bolded (under Contracts and Reserves, Technical Assistance Potential Contracts, Grant writing Potential Contracts and Grants Administration) totals \$86,000 and is the amount we do not have committed contracts to cover right now at the beginning of the year. This is normal for the RDC as we develop our contracts for projects throughout the year and rarely would start a year without a shortfall. We always start out by listing that we will add funds from the reserves to balance the shortfall and this amount gets reduced throughout the year as project contracts come in.

In FY 10 through 12 we had a very minimal beginning of the year shortfall because of the large hazard mitigation grants which helped fill that gap. Below is a little history on how our budget looked at the beginning of past years and how we ended up.

	Beginning shortfall	Ending balance
FY 08	-105,000	+12,991
FY09	-124,000	+21,281
FY10	-25,000	+81,065
FY11	-30,000	+166,744
FY12	-44,000	Still Open
FY13	-86,000	

Please note that the Hedgehog information is now listed at the bottom of the expense sheet and as Hedgehog grants are awarded they will be listed each month on the treasurer's report along with the available balance for the year.

Each year we prepare the draft budget and ask the RDC in June to recommend it for presentation at the public meeting as part of our RDC annual meeting in July. The RDC has the public meeting as part of the annual meeting and based on comments received (usually none) adopts it in July. It is not unusual that between now and July we might have an additional contract to add (reducing the shortfall) if that is the case staff will point that addition out either in June or July prior to the adoption process.

ACTION REQUESTED:

To approve using the attached draft FY 2013 UMVRDC budget for the public hearing at the July 24, 2012 RDC annual meeting.

RE: Governmental Accounting Standards Board (GASB) 54 Policy Review:
FY12 Fund Balance Schedule;

Last year the RDC adopted the Governmental Accounting Standards Board (GASB) GASB Statement #54 to establish a new fund balance classification system. This policy was added to the Accounting Policies & Procedures Manual. A requirement of GASB #54 is that the policy and fund balance schedule will be reviewed each year to ensure that there are sufficient unassigned general fund dollars. A copy of the policy is enclosed for your review. Also for your review is a copy of the FY12 Fund Balance Schedule.

At this time we do not see a need for any changes to the policy or the FY12 fund balance schedule.

ACTION REQUESTED:

- 1) For the Commission to approve the existing Governmental Accounting Standards Board (GASB 54) policy with no changes;
- 2) For the Commission to approve the current UMVRDC FY12 Fund Balance Schedule with no changes.

Enclosures

GASB 54 Fund Designation

PURPOSE

The purpose of this policy is to establish new fund balance classifications to allow for more useful fund balance reporting in compliance with the reporting guidelines specified in Statement No. 54 of the Governmental Accounting Standards Board (GASB), to ensure the financial stability of the Upper Minnesota Valley Regional Development Commission (UMVRDC), and to provide a reserve enabling the UMVRDC to deal with unforeseen budget expenditures and revenue shortfalls.

GENERAL STATEMENT OF POLICY

The policy of the UMVRDC is to classify its fund balances based on the nature of the particular net resources reported by the UMVRDC. Fund Balance categories will be identified according to the guidelines in Governmental Accounting Standards Board (GASB) Statement No. 54. Fund Balance categories will include Nonspendable, Restricted, Committed, Assigned and Unassigned.

DEFINITIONS

- A. **Nonspendable Fund Balance** – represents amounts that are not in a spendable form - such as Inventory, Postage, Prepaid Expenses, Accrued Interest Receivable, Taxes Receivable, and Fixed Assets.
- B. **Restricted Fund Balance** – represents amounts that can be spent for only the specific purposes stipulated by constitution, external resource providers, or through enabling legislation- such as grants, pass-through funds etc. Restrictions may be changed or lifted only with the consent of the resource provider.
- C. **Committed Fund Balance** – represents amounts that can only be used for the specific purposes determined by the UMVRDC Board. It requires formal action by the UMVRDC Board to remove or change the constraints placed on these resources - such as amounts committed for vacation, unemployment claims, and the medical reimbursement plan.
- D. **Assigned Fund Balance** – represents amounts intended for a specific purpose. The UMVRDC may delegate the authority to assign amounts in this classification to the Executive Director and/or the Finance Director - such as between tax settlement.
- E. **Unassigned Fund Balance** – represents resources available to meet current and future years' expenditures - such as the general fund balance.

ORDER OF RESOURCE USE

UMVRDC hereby establishes the following order for resource use: Restricted Fund Balance, Committed Fund Balance, Assigned Fund Balance, and Unassigned Fund Balance. Journal entries at the end of the fiscal year may be used to accomplish this.

COMMITTING FUND BALANCE

A majority vote of the Commission is required to commit a fund balance to a specific purpose and subsequently to remove or change any constraint so adopted by the board.

ASSIGNING FUND BALANCE

UMVRDC Board, by majority vote, may assign fund balances to be used for specific purposes when appropriate. Requested changes in assignments must be presented to the UMVRDC Board prior to any change in the designation of funds.

The Commission will endeavor to assign at least 25% of the UMVRDC's General Fund operating budget, excluding those accounts associated within the restricted category. Amounts reported as assigned should not result in a deficit in the unassigned fund balance.

Use of an existing fund balance to eliminate a budgetary deficit in the subsequent year's budget satisfies the criteria to be classified as an assignment of fund balance. The amount assigned cannot be greater than the budget deficit.

REVIEW

Upon completion of the audit, Commission will conduct an annual review of the sufficiency of the minimum unassigned general fund balance level to determine if further action is required.

RE: FY2013 Goals (Work Plan)

Attached are the DRAFT 2013 Big Huge Audacious Goals (BHAGs). Committee members and staff met over the last few months to edit and make revisions prior to their adoption at the July annual meeting as the official FY13 UMRDC work plan.

ACTION REQUESTED:

Recommend the presentation of these goals, strategies and tactics as the official UMRDC work plan at the July 2012 annual meeting.

Community Development:	Be the premier agency for community development in Region 6W.					
Base Camps: 70% - 80% - 90% -	How do we measure these percentages? Is it our approval rating (i.e. percentage of LUGs that approve of our programs and services)?					
Strategy A. Increase relationships with LUGs to better understand their needs and how we can assist them.	Tactics	Timeline	Measurement	Accomplishments	questions to committee	
	1. Survey cities to find out what their short- and long-term project are, issues they are facing, what they are planning to do vs. what they want to-do, and how can the RDC better assist them.	Annually	Was the survey sent out? What were the response rates?			
	2. Follow up with survey results via phone, letter and in-person visits with cities	Annually	Was follow-up completed?			
	3. Through the CEDS process identify updated regional goals through a total of 5 county-wide meetings.	Fiscal Year	What are the update regional goals? Were meetings held in each county?			
	4. Communicate to LUGs the results of the county-wide meetings and how they can leverage the new CEDS goals and strategies to help themselves.	Fiscal Year As-needed	Were the letters sent out?			
	2. Continue to offer the "Smallest Cities" program for cities under 500 in population.	Fiscal Year As-needed	Was this requested from any of our smallest towns?			
Strategy B. Target local units of government with opportunities that help accomplish their goals and provide opportunity for the RDC to secure enough contracts to balance the budget.	Tactics	Timeline	Measurement	Accomplishments		
	1. Send out 12 grant/loan opportunities throughout the year from state, federal or local entities for communities to apply to (maybe one a month through the eblast)	Fiscal Year	How many opportunities were sent out?			
	2. Develop a comprehensive plan update proposal to be sent out to all cities/counties that have plans authored by the UMRDC.	Fiscal Year	Were the proposals sent out?			
	3. Develop 3 contracts for comprehensive planning services.	Fiscal Year	How many contracts were developed?			
	4. Provide a follow-up contact for additional services for every "plan" that the RDC completes during the fiscal year. Plans Completed:	Fiscal Year	Follow-up:			
Strategy C. Provide a regional format for education.	Tactics	Timeline	Measurement	Accomplishments		
	1. Host three trainings or workshops. Topics: CENSUS data, Transportation, Regional Recruitment, Chamber/Tourism Training	Fiscal Year	How much training occurred?		What types of training should the RDC consider?

Regional Match	\$100,000	100%	100%
EDA Request	\$400,000		
Total Recap	\$500,000		

Staff will begin working on the application immediately. As part of the application process EDA needs a resolution from the applicant committing the match funds. Please find the resolution attached to this memo.

EDA also requires an updated RLF Plan. Staff will work with EDA staff to update the plan and will present a draft to the Loan Advisory Board July 9th. The Board of Directors shall report its actions on all matters to the Commission at the next meeting of the Commission.

The Board of Directors shall function as the Budget and Personnel Committee for the UMRDC and be empowered to meet on an emergency basis to handle issues that need immediate attention.

The duties and responsibilities of the Board of Directors may be modified from time to time by the Commission.

Section 2. Membership: The Board of Directors of the Commission shall consist of one commissioner from each county, plus the chairperson of the Commission. A commissioner shall be elected to the Board of Directors at the July meeting and may be selected to succeed himself/herself. In no instance shall a commissioner be selected to serve more than four consecutive one-year terms. If it is determined by the entire Commission that a member of the Board of Directors is not fulfilling his/her responsibilities, the entire Commission by majority vote may remove said commissioner from the Board of Directors.

Section 4. Vacancies: Vacancies on the Board of Directors shall be filled by the Commission in the same manner as commissioners are elected to the Board of Directors. If a commissioner on the Board of Directors was not re-elected to his/her local elected office, a vacancy would occur.

Section 5. Meetings: Meetings of the Board of Directors shall take place at such time, and place as deemed necessary by the Board of Directors. RE: Hedgehog Grant Program Recommendations

In the last three years the UMRDC sets aside funds from our levy or general fund for an account that we allocate as "Hedgehog Grants". The fund is designated for projects within the region that complement goals set forth by the RDC. A project can request funds to cover a portion of the total cost of the project if the project contract is with the RDC. I have again targeted \$20,000 in our FY 2013 budget to be used for this purpose. These funds will have a separate line item in our agency budget and tracked in-house.

In FY2012 we subsidized the following work:

- \$4,000 for Dawson EDA Grant Writing (\$8,000) Jan 2012
- \$4,850 for Milan Comprehensive Planning (\$9,700) May 2012
- \$4,000 for Granite Falls EDA Grant Writing(\$8,000) May 2012
- \$3,500 for Swift County Solid Waste Plan Development (\$7,000)

Cumulatively we used \$16,350 to gain an additional \$16,350 in new revenue.

Staff and a board committee of Gary, Gary and Mike discussed what types of projects to fund. We realize there may be some political pressure to fund certain types of projects or projects in certain communities. In the end we need to consider how we can use this money to benefit the region and the RDC's sustainability. This money is coming directly from the agencies operating budget- so we need to ensure that it will generate **additional** funds to the agency in order to justify its use. Below are some concerns/comments we are still struggling with regarding the funds use and requirements.

1. We should use this fund to work on projects that have a potential to generate additional projects for the RDC. Example: if we subsidize the writing of a SCDP grant and it is successful, we will receive additional funds for the administration of the grant. If the funds can be used for any grant writing services there may be many grants we do that do not have any follow up role for our office.
2. There has been some recent discussion about what makes up a qualifying "plan". The RDC is often hired to develop a document (plan) that contains goals and strategies, usually has some form of public input and has the intent of guiding future development, processes, policy or work of a local

unit of government. The comprehensive plan is the grand daddy plan that covers a variety of topics as determined important to the governmental body. Sometimes there is the need for a separate additional “plan” that is more focused and detailed in nature but the plan still guides future development, processes, or work. Examples might be:

- Business retention and expansion plan
- Energy plan
- Solid waste plan
- Land use plan
- Broadband plan
- Marketing plan

Comprehensive and strategic plans allow our staff to be involved with the priority issues for governments. There would be lots of insight we could gain and follow-up on for future projects. These projects tend to be much larger and longer term projects (\$20,000-40,000 for a full blown plan). **It was noted that “comprehensive plans” is a broad category that covers many topic specific plans and staff will clarify this on their guidance document.**

Sometimes these plans overlap into more of a “strategic” plan. Strategic plans are shorter term than a comp plan. This type of plan just gets more detailed about the who, what, when, where, why and how to pay for the actions identified. Sometimes a comprehensive plan will contain a more detailed implementation portion that contains the more detailed strategic plan but not always.

3. Should we rank projects according to determined priority areas and goals? **Staff was directed to not score applications numerically but just provide a checklist of their eligibility for the board to consider. As long as it meets these criteria will you automatically fund it?**

<i>Criteria</i>	
Yes/No	City under 500 population
Yes/No	Has not received a Hedgehog Grant this RDC fiscal year (July-June)
Yes/No	UMVRDC proposal accepted and contract in place
Comprehensive Planning Strategic Planning Grant Writing	Eligible project area:
	Year of last contract with RDC
Yes/No	Potential for follow up contract administration
	Total contract amount <ul style="list-style-type: none"> • under \$999 • between \$1,000-2,499 • between \$2,500- \$9,999 • over \$10,000
Yes/No	RDC Recommended for funding DATE: _____

4. We previously targeted our small towns for a larger share (\$10k of the \$20k available) of the funds. They have not been actively using the funds and the RDC board reallocated those funds to counties or our larger cities in FY 2011 and 2012. The committee recommended keeping the target available for smaller towns but if those funds are needed to fund another request that we would automatically convert some of them. **Once we tap into these funds how do we market the remaining funds (only for small towns or for everyone?)**

ACTION REQUESTED:

Discussion and guidance on the eligibility and use of the Hedgehog Fund and a recommendation to include \$20,000 again in the FY 2013 budget.
